

Tour-8

Peschiera - Lazise - Ronchi - bike path to Verona to the Arena and back

70 km / 500 hm can vary depending on route changes

Category RED

- Along the Adige Canal mostly on the cycle path to Verona to the Arena di Verona
- Verona with Arena the absolute highlight
- Relaxing canal cruise

This tour sounds very unspectacular but is a real pleasure. First from Peschiera east to Ronchi until you reach the canal that flows to Verona. There is a very nice bike path along the canal. Wonderful without traffic and just rolling. Approaching the city of Verona, the route changes direction again and again and then it goes through the urban area to the ancient Roman Arena, where opera performances and concerts are held today. We take a break at the large forecourt and enjoy a cappuccino or some delicious pasta. Return on the same route back.
