**Category BLACK**

**Opportunities for rest and photo stops:**

- Ferry from Torre to Maderno.
- Drive to Gargnano and Navazzo Extremely pleasant climb and view of the lake
- Val Vestino reservoir great ride along with racing bike
- Capovalle in the mountains
- Junction towards Sanuario Rio Secco Cappovalle / Rifugio Passo Cavallino della Fobbia, steep sections along the way
- After the Passo Cavallino great descent to Vobarno, beware of rough asphalt, very narrow road
- A long and challenging tour

One of the absolute highlight tours. Long exhausting but also incredibly impressive. Early in the morning back to Torre del Benaco to the ferry and then it goes to Gargnano, there is more traffic, about 7 km and then it goes left up to Navazzo, super driveway with a very fine incline and the view forces you to stand again and again stay and capture it photographically.

After Navazzo, the route takes you on a narrow road along the more or less full reservoir to the Osteria Snack Bar Al Muli. Here's a chance to take a break. Immediately after the osteria, it goes left and right uphill over several bends and hairpin bends to Cappovalle. As soon as you have reached the Passo San Rocco, it goes downhill a bit and in the first hairpin bend you turn left onto a small, inconspicuous asphalt road. Now a wonderful but also steep ride to the Sanutario. You cycle through the church and then you soon reach the Rifugio Passo Cavallino. A break is announced, but only when the Rifugio is open. Now the great but also strenuous descent begins on a narrow road with very rough asphalt, concentration is important. Finally you come to Vobarno and then you go back on the federal road to Desenzano and on to Peschiera.
